5+ years of experience in integration development, with at least 2+ years working with Workato.
• Strong expertise in Workato recipe development, API management, webhook integration, and custom connector development.
• Proficiency in RESTful APIs, JSON, XML, SQL, and cloud-based application integrations.
• Experience with enterprise SaaS applications such as Salesforce, NetSuite, Workday, and other ERP/CRM systems.
• Knowledge of Workato security best practices, governance policies, and error-handling mechanisms.
• Ability to translate business requirements into scalable automation solutions with minimal supervision.
• Strong problem-solving skills with a proactive approach to troubleshooting and optimization.
• Excellent communication and collaboration skills to work effectively with technical and non-technical stakeholders.
• Workato certification(s) or equivalent hands-on experience in Workato enterprise projects.
• Experience with scripting languages such as Python, JavaScript, or Ruby for advanced automation needs.
• Familiarity with data transformation, ETL processes, and event-driven architecture.
• Experience working in a mission-driven organization or a passion

Job Description:
We are looking for a skilled Part-Time WordPress Developer to update and maintain our existing website. The ideal candidate should have strong experience in WordPress website maintenance, malware removal, and overall website security. Additionally, if new projects arise, you will be responsible for assisting in the development of new WordPress websites.
Responsibilities:
Regularly update and maintain the existing WordPress website.
Troubleshoot and fix website issues, including broken links, speed optimization, and security vulnerabilities.
Perform malware scans and clean up infected websites.
Ensure website security by implementing best practices and necessary updates.
Assist in building and designing new WordPress websites when required.
Manage website backups and ensure data safety.
Requirements:
Proven experience in WordPress website maintenance and development.
Strong knowledge of WordPress security, malware removal, and performance optimization.
Familiarity with WordPress themes, plugins, and customizations.
Experience with cPanel, FTP, and website hosting environments.
Basic understanding of HTML, CSS, PHP, and JavaScript is a plus.
Ability to work independently and troubleshoot issues effici

dedicated to innovation and quality, we transform ideas into impactful solutions. Guided by our core values of integrity, dependability, trust, accountability, and innovation, we strive for excellence in every project. Our diverse and talented team works seamlessly to ensure client satisfaction and to tackle technological challenges as opportunities.
Job Title: Freelance Wix Developer (Contract Role)
Experience Required: 2+ Years
Job Type: Contract / Freelance
Location: Remote
Duration: Project Base
About the Role:
We are looking for a talented and self-motivated Wix Developer with a strong eye for design and solid technical skills to join our team on a contract basis. You will work closely with our design and marketing teams to build, customize, and maintain stunning and high-performance Wix websites for our clients.
Key Responsibilities:
Design, develop, and maintain responsive websites using Wix Editor / Wix Studio.
Customize Wix templates to meet client requirements.
Implement custom features using Velo by Wix (JavaScript-based development).
Ensure websites are SEO-friendly, mobile-optimized, and load efficiently.
Collaborate with stakeholders to translate design mockups
into functioning websites.
Integrate third-party tools and APIs as required.
